PROFILE

Full stack engineer working across commercial WordPress products, Laravel services, frontend applications, integrations, and developer tooling. Experience includes company, contract, and overlapping independent work since 2016.

RECENT PROFESSIONAL WORK

Webilia

Aug 2024 - present

Full Stack Developer

Building and maintaining Listdom, a commercial WordPress directory platform and its add-ons, themes, integrations, and developer tools.

- Owner-reported 600+ PRs across the ecosystem; approximately 400 in core and 200+ in related work.
- Designed and implemented Template Builder, Demo Importer and Settings Panel packages, and Placora theme.

RTL Theme

Jun 2024 - present

WordPress Developer / contract

Independently developed two commercial themes: Blogina for education sites and Serione for corporate sites.

- Blogina: Figma to WordPress production, theme architecture, settings, and course-focused views.
- Serione: settings infrastructure, Elementor and WooCommerce functionality, project content, AJAX filtering, and account areas.

Dalga

Aug 2024 - Jan 2025

WordPress Developer / freelance

Built a custom PayPro Global gateway plugin for a WordPress commerce and subscription workflow.

- Integrated the gateway with WooCommerce Subscriptions and its payment flow.
- Handled the WordPress, WooCommerce, subscription, and payment-provider boundaries.

iGame

Mar 2024 - Jan 2025

Full Stack Developer

Worked on the customer website and user panel, connecting a Next.js frontend to WordPress and another service API.

- Built customer-facing product, order, and account flows in Next.js.
- Worked inside existing WordPress code and maintained a custom theme; the public PWA repositories show the frontend boundary.
